

Dear Catrike Customers,

As a proud U.S. manufacturer, we source components from top cycling suppliers worldwide. Due to fluctuating and unknown material and component costs from international suppliers, our pricing may be subject to a potential increase of up to 10% without prior notice. We remain hopeful that U.S. manufacturers will receive relief or that costs will return to normal.

Now is the perfect time to secure current pricing and gear up for summer adventures on your new Catrike!

Happy Trails,  
The Catrike Team
