

Dear Catrike Customers,

As a proud U.S. manufacturer, we source components from top cycling suppliers worldwide. Due to fluctuating and unknown potential international tariffs, our pricing may be subject to a potential increase of up to 10% without prior notice. We remain hopeful that U.S. manufacturers will receive tariff relief or that rates will return to normal.

Now is the perfect time to secure current pricing and gear up for summer adventures on your new Catrike!

Happy Trails,
The Catrike Team
